Urge repeal of UN Resolution 3379

We are leaders of American ethnic, religious, and racial groups dedicated to promoting pluralism and opposing bigotry. We represent America's historic commitment to freedom and justice. In short, we are "America's United Nations."

We join together to support the call of President Bush and a growing number of world leaders for repeal of the infamous United Nations General Assembly Resolution 3379. This resolution, passed

16 years ago this month, equated Zionism with racism. It is an insult to millions of Americans.

In the same vein as the "Jim Crow laws," or the Nazi "laws of racial purity," the UN resolution abuses law to promote hatred. We cannot remain silent in the face of this destructive resolution or allow its pernicious influence on human relations and the Jewish people to go unchallenged.

The UN must act now to remove this obstacle on the path to peace!

Since 1975 the American Jewish Committee has played a leading role in the drive to repeal U.N. resolution 3379. The American Jewish Committee fights anti-Semitism and bigotry, and seeks to insure Israel's security and well-being, enrich the quality of Jewish life, nurture pluralism, and protect human rights for all.

For more information about the American Jewish Committee and a copy of our booklet, "Anti-Zionism: The Sophisticated Anti-Semitism," please write to: Bernard Marcus, Chairman, Project Repeal. The American Jewish Committee, 165 East 56 Street, New York, New York 10022.
