Author Of White Paper Says That Zion OweS Everything To Jewish Enterprise

Winston Churchill, who is the Colonial Secr etary who invented and extolled Palestine “White Paper” has sent a message to a meeting in San Francisco, where he is now staying, held to protest against the events in Palestine.

The author of the White Paper, Mr. Churchill, who is, to say the least, a man of prestige, has in a recent essay pointed out that Palestine is the property of the Jews in the same way as America is the property of the English. He has also pointed out that Palestine is the property of the English in the same way as America is the property of the Jews.

The White Paper states that the Jewish people have a right to their own land and that the British Government should hold fast to this right. The White Paper also states that the Jewish people have a right to their own land and that the British Government should hold fast to this right.

ENGLAND'S SUNDAY PAPERS ON A POLICY OF SCUTTLE

LONDON, September 22 (P.T.A.)

The reeling Britain by Great Britain of the Iraq mandate having given the cheaper press an opportunity to repeat its old slogan that “England must scuttle out of Palestine” the more responsible Sunday papers have been declaring that there must be no weakening of Great Britain’s hold over Palestine.

The Government is now under an emphatic obligation to maintain and continue its firm policy in Palestine.

It must protect impartially Jew and Arab. Any weakening of this policy is bound to be fatal. “Given adequate measures of security, including effective British gendarmerie. Palestine under the British mandate is assured of increased stability and prosperity.”

The “Observer,” welcoming Great Britain’s declaration that she will end the mandate for Iraq adds, “it cannot be said too clearly that Palestine is quite a different matter. We enter that country with a given task which we are in honour bound to perform and it should inconceivably happen that it becomes sabotaged by others on whose behalf it is undertaken.”

“We are pledged,” continues the “Observer,” “to establish a national settlement for the Jewish people in Palestine. The corollary is that there must be whole hearted cooperation of our representatives in Palestine in executing our declared policy. Conversely we are entitled to require that the Administration which is tied hand and foot under any circumstances should not be embarrassed by interminable factions among its beneficiaries.”

The “Observer,” adding that England is giving up the Iraq mandate hopes also that it will give up the Palestine mandate. Because, however, Palestine is quite incapable of looking after itself. America which has plenty of money should try her skill in managing Palestine.

ACTING HIGH COMMISSIONER FOR IRAQ

The Palestine Bulletin bears on excellent authority that Major Hubert Winthrop Young, who is expected to arrive in Baghdad this week, will assume the duties of Acting High Commissioner for Iraq 1927. He fought in the 1927 dash for dams in the Middle East. He is well informed on all Palestine affairs. His experience both in the East and at the Colonial Office should result in making his work in Iraq a great success.

Pakistani Jewry Heretically Contemplative Of Danger

The Jews of Palestine have been heroically contemp tuous of all danger, writes Dr. Leib Yaffe, from one of the offices of the Keren Hayesod. The Jewish Settlements are very few and the Jews are in a state of constant danger. The Jews of Palestine are in a state of constant danger. The Jews of Palestine are in a state of constant danger.

Arab College in the Neighbourhood of the Wall

According to the “Davar,” the building now being erected on the left side of the Walling Wall is to be used for a Moslem religious college there. The “Davar” states that the building is an enormous one and that it is being erected in the building line, which is situated a little outside the old city, and that it is being erected in the building line, which is situated a little outside the old city.
