JEWISH AGENCY SEEKS U. S. AID

Wants Pressure on Arabs
Against Uprisings.

Officials of the Jewish Agency for Palestine were reported today to be seeking means in the United States for suppression of Arab uprisings in the Holy Land over the partition plan recently adopted by the United Nations General Assembly.

Informed sources at Lake Success said that Jewish Agency officials were also feeling out possibilities of obtaining American aid to restore order in the Holy Land. It was reported that the aid being sought included diplomatic pressure by the State Department on governments of the Arab nations in the Middle East and an embargo on materials that might be used by the Arabs to further the conflict.

There was an added suggestion, without confirmation, that the United States might be asked to supply arms for defense of the Jewish nation which will arise from the partitioning of Palestine.

Shertok Going to Capital.

Moshe Shertok, head of the Jewish Agency's political department and likely choice for Foreign Minister in the first Cabinet of the Jewish nation, planned to go to Washington tomorrow to consult with Government officials. He said these visits could be termed "courtesy calls."

Shertok conferred with Secretary-General Trygve Lie at the U. N. yesterday, after Lie told a press conference that he was considering a visit to Palestine himself early next year. Lie would visit Palestine briefly for the installation of the secretariat staff which will serve the five-nation U. N. commission charged with supervising the transfer of authority from the British to the Arabs and Jews.

The Jewish Agency may soon begin talks with British colonial officials in London on details of the transfer.

Scene of Fighting

ing mill and toy factory. An Arab shop in the Jewish section also was burned. An Arab fireman was killed by an electric shock while fighting the flames at the lumberyard.

An Arab mob on the highway between Tel Aviv and Lydda Airport stoned a Norwegian Air Lines automobile and beat up the Jewish driver, but did not molest a uniformed official in the car.

Arab leaders said they had refused a personal request from Sir Henry Gurney, Chief Secretary of the Palestine Government, to call off the first two days of the strike—the first two days of which were marked by at least thirty-one violent deaths, injury to hundreds and countless cases of pillage and destruction.

Arabs and Jews fought for hours yesterday with hand gre-

nades and chine guns in the man's land between Tel Aviv and Jaffa.

One Ray of Hope.

Beyond the borders of Palestine, the British Colony of Aden was under partial military law because of anti-Jewish riots. Demonstrators in Cairo ranted against the United States, Russia, Great Britain and the Jews. In Aleppo, Syria, twenty Jewish-owned buildings were demolished. In Baghdad and in Cairo some Arab leaders took steps by which they hoped to launch a jihad, or

holy war, "to drive the wolves from Palestine."

There was but one faint ray of hope for an end to the current disorders. A committee of Arabs returned last night from a meeting in Lebanon with Haj Amin el Husseini, the exiled Grand Mufti of Jerusalem, and issued an appeal to the Arabs of Haifa to "refrain from unorganized attacks and await orders."

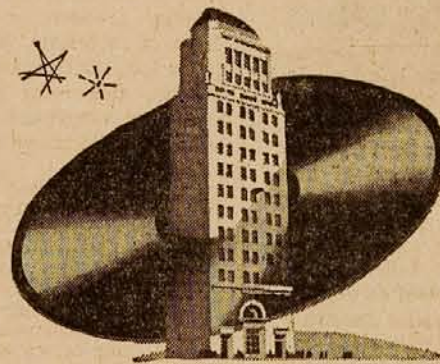

Timber in Oregon.

Oregon has more standing timber within its boundaries than

any other State. Its timber States. Almost half of Oregon's amounts to 438,000,000 board feet, or nearly one-fifth of the thirteen national forests of the supply of the whole United State.

Jamestown Paper Is Abbreviated

Jamestown, N. Y., Dec. 4 (A. P.).—A printers' strike at the Jamestown Post-Journal moved into its second day today with the publishers planning to get out another abbreviated edition, and no hint of a settlement from either side. In a story of the walkout, the paper said that it was the first time in the 100-year history of the Evening Journal, the Morning Post and their successor, the Post-Journal, that a printers' strike had affected publication.

Employees of various departments worked to get the paper on the street, using new teletypesetters and a photo-engraving plant.

Jersey Potato Crop Reduction Opposed

Washington, Dec. 4 (A. P.).—A protest against a rumored recommendation from the Department of Agriculture for a reduction of the New Jersey potato crop considerably beyond that in other areas was voiced today by Representative Auchincloss (R-N. J.) in a letter to Jesse D. Gilmer, Administrator of Production and Marketing. Auchincloss said that last year's New Jersey crop was 91 per cent United States No. 1 grade.

U. S. War Memorial Unveiled in England

Weymouth, England, Dec. 4 (A. P.).—A twenty-foot column bearing a light to commemorate the 517,816 American troops who passed through Weymouth en route to France was unveiled yesterday. The column bears a plaque contributed by the Fourteenth Major Port Unit, United States Army, in commemoration of the art Weymouth, on the English Channel, played in the invasion of Europe.

Hijacking Story a Hoax. Somerville, Mass., Dec. 4 (A. P.).—A young Lowell man's story that two hijackers stole his truck carrying a cargo of \$60,000 worth of cigarettes was branded as a hoax today by FBI agents and Somerville police. Leo R. Vigeant related, the investigators said, that he concocted the story to attract attention in the hope it would help him get a job.

Visitor Coming.

When you drop a dishrag while cleaning up the kitchen, it means that you're bound to have a visitor, and an unpleasant one, at that, according to an old Ozark superstition.
