

The transport Knesset Israel (above), jammed with 3854 Jews seeking a home in Palestine, enters Haifa harbor after a voyage from Europe. When British soldiers tried to board the vessel the refugees, weary from years of war and persecution, gave battle. Using tin cans as weapons, they held off the British for some time. A young Jewish boy (right), wounded in the fight, is re-

moved by British soldiers to one of three ships waiting in the harbor to depart the would-be immigrant. Sick refugees (left), removed from the Knesset Israel, wait on the dock for ambulances to take them to a hospital in Haifa. Behind the soldier are tin cans thrown during the battle with British troops.

### Zionists Crowd Swiss Town For 22nd World Congress

Special to The Chronicle  
BASEL, Switzerland, Dec. 7.—This Swiss industrial town on the banks of the Rhine, where the Zionist movement was born 50 years ago, is crowded to capacity with every train bringing additional hundreds of delegates and observers to the 22nd World Zionist Congress which will open Monday.

To house the expected 2000 visitors in a town already crowded, the Zionist organization engaged every available hotel room and rented the nearby Swiss military cantonment where 700 will live during the two-week conference. A mess has been organized to feed those at the cantonment.

Rooms in private homes also are being used by many, unable to find shelter in this city, with its population of 162,000, will commute from other Swiss towns. Some expect to

### New Director at Opinion Research

DENVER, Dec. 7 (P)—Dr. Clyde W. Hart will become director of the National Opinion Research Center at the University of Denver January 1, succeeding the late Harry H. Field, who was killed in an airplane accident at Paris last September.

The appointment was announced today by Dr. Ben M. Cherrington, president of the board of trustees of the center, and Caleb P. Gates, university chancellor.

### Mt. Zion Has an Old Tradition

Names of the leaders in the present \$3,500,000 drive for a new Mount Zion medical center are in many cases the same as those who carried on the first Mount Zion drive in the eighties.

One San Franciscan whose life span bridges both the launching of the first hospital and the planning for the new medical center is J. B. Levison, 84, retired insurance executive.

Levison, for 20 years president of Firemen's Fund Insurance Co., became a director of the hospital in 1898, the youngest board member at the time.

Today, emphasizing the community-wide service of the hospital throughout its long history, Levison declared:

"I wish particularly to call attention to the fact, not generally known, that the doors of Mount Zion have always been open to all who need medical or surgical attention, regardless of race or creed."

Levison recalled many of the San Francisco families identified with Mount Zion throughout its existence.

Two granddaughters of founder Emanuel Raas are Mrs. Edward S. Heller and Mrs. George Levison, both active campaigners today. William Haas, third president, was an uncle of Walter A. Haas, whose wife is a campaign vice-chairman.

### U.S. Allotted 48 Rhodes Scholarships

PRINCETON, N. J., Dec. 7 (P)—Rhodes scholarships, blocked out in 1938 by war, are being awarded again this year to help—in their donor's words—bring about peace, enlightenment and uplift of mankind.

Announcement of the record number of 48 awards to outstanding students in United States colleges and universities will be made December 15 by Dr. Frank Aydelotte, director of the Institute for Advanced Study in Princeton. Dr. Aydelotte also is American secretary for the Rhodes trustees.

From the first award in 1904, when the scholarships were founded under the will of Cecil John Rhodes, South African financier and statesman, 1126 students of 211 American colleges have attended the University of Oxford, England.

### PRINCETON HEADS LIST

Forty-one educational institutions have had 10 or more students selected by the Rhodes award committees.

Princeton heads the list with 61 Rhodes scholars. Other leaders, in order, are Harvard 46, Yale 43, Virginia 26, Brown 22, Dartmouth 20, Idaho 18 and Michigan 17. Arizona, Nevada, Washington (Seattle) and Wisconsin have had 15 each.

Competition this year, Dr. Aydelotte said, is at its peak, with 850 applications received, as compared with a previous high of 550.

Dr. Aydelotte said the United States was divided into eight districts, each including six states, for applications. The District of Columbia was included with Maryland.

State committees will meet December 12 to screen outstanding applicants. District committees will meet December 14. Each district

### Heat Stricken Fish

WILMINGTON, Del., Dec. 7 (P)—Heat stroke in fish is described in the journal of the Research Board of Canada. The trouble does not seem to be sunshine directly but water that gets unusually warm.

The heat stroke was found not infrequently in Nova Scotia and New Brunswick, Canada.
